

~~SECRET~~

Draft IAC Action with Respect to the Post-Mortem on SNIE 11-10-57

1. Notes the findings and approves the recommendation contained in paragraph 4 of the post-mortem on SNIE 11-10-57, but deletes paragraph 5 of that post-mortem.
2. Notes, in this connection, the "back-up" report (including the "conclusions") of the ad hoc committee used as a basis for the reply by the IAC (approved by the IAC on 17 December) to the Deputy Director for Intelligence, The Joint Staff, in response to his request for a study by the IAC of certain questions which arose in connection with a Department of Defense study of defense against intercontinental ballistic missiles. (IAC-D-81/15.2; IAC-M-321, item 9)
3. Agrees that the following action be taken:
 - a. The GMIC is instructed to review the aspects of the guided missile intelligence collection problem, as outlined in the "back-up" report referred to in paragraph 2 above, and report by 1 February 1958 to the IAC its recommendations with respect to which of those collection systems named in the report should be augmented and/or

implemented, together with the degree of priority to be assigned to each of the recommended systems. Subject to IAC approval of the 1 February GMIC recommendations, the GMIC is also directed to monitor the implementation of the IAC approved collection program and report periodically to the IAC on its status and progress.

b. To further clarify the GMIC's authority to proceed with the action outlined above, paragraphs 1e and 1f of the present GMIC Terms of Reference (IAC-D-81/14, 31 January 1956) are amended as follows:

(1) Paragraph 1-e

"Advising Make recommendations to the IAC regarding guided missile intelligence collection systems and requirements."

(2) Paragraph 1-f

"Providing a mechanism to assist the member agencies to coordinate their guided missile intelligence collection and production efforts."
